2021+

## EGGER – More from wood.

EGGER has stood for quality products for decades: We create more from wood. Living and working with wood is our passion.

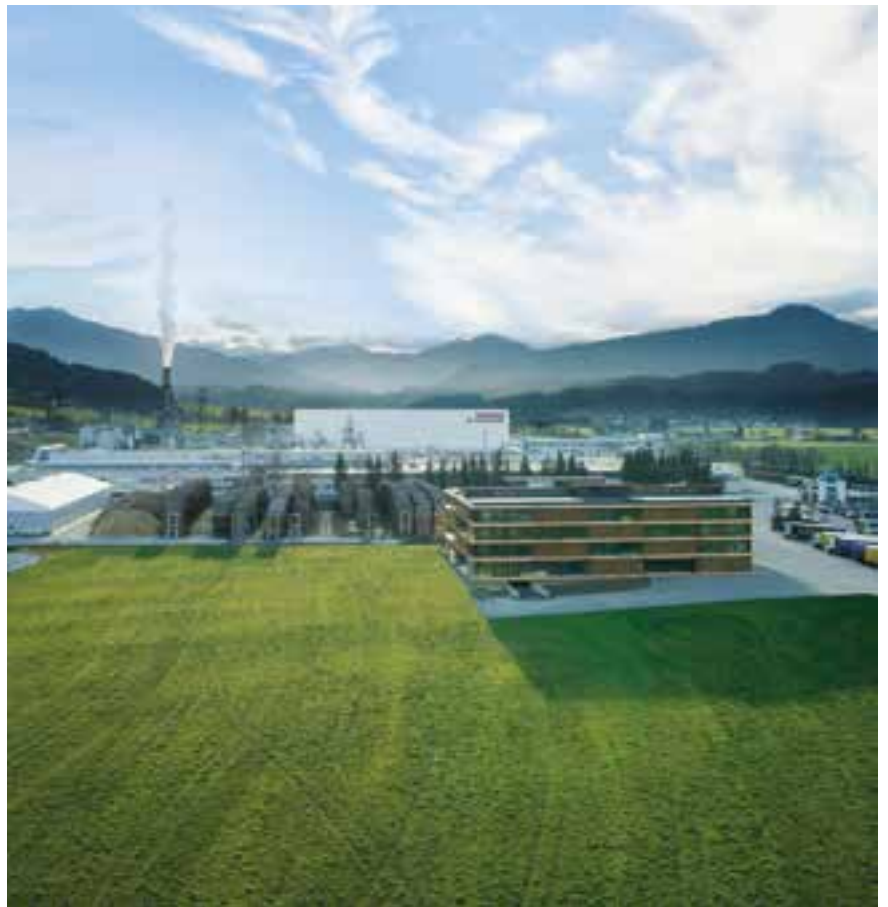

Founded in 1961 in St. Johann in Tirol (Austria), EGGER today is a steadily growing and internationally active family business. As a full-range supplier for furniture and interior design, structural wood construction and flooring, we're one of the world's leading manufacturers of wood-based materials.

We deliver on our promises of quality, sustainability, innovation and professionalism, bringing these qualities to life to meet the high demands of our customers time and again.

The EGGER PRO Collection 2021+ offers enticing new decors, product innovations and creative trend concepts. With a variety of products available, customers can create an individualized portfolio from our collection of decors.

# The passion for wood is in our nature.

A fascinating raw material: The respectful use of wood has always been the basis of our work – from efficient resource processing to the finished product.

We only use wood from regional, sustainable forestry, and we use recycled materials whenever possible.

We don't use any plasticizers or PVC. All flooring is free of pollutants, and even the decors are printed using water-based dyes.

When you enter a room with EGGER flooring in it, you understand our passion for wood.

What was once beautiful comes back: In the rapidly changing world of digitalization, more and more people are longing for what's familiar. Modern interpretations of reproductions and natural textures such as marble, terrazzo and walnut characterize a design trend where past and future enter into a stylish symbiosis.

Back to nature: The more technology finds its way into our lives, the more we are drawn to original materials. Oak remains the primary trend in wood. Whether with a natural grain, or with cracks and knots, oak decors prove versatile and authentic, providing exciting contrasts.

The charm of the urban: Living and office spaces are becoming more open, and transitions are becoming fluid. Intelligent use of space is a must, with a friendly, light design.

Influenced by Scandinavian design, materials such as wood, stone and metal ensure comfort by inviting you to feel at home in bright and light environments.

# PERFECT

*imperfection*

EPL160

Sometimes, perfection emerges when something is not quite perfect: In design, the irregular, broken and unfinished proves to be a popular trend. Handmade or weathered materials convey naturalness and emotion. Used looks and industrial styles in combination with quiet, straight-lined shapes and surfaces create a sensual living ambiance.

# Design with scale.

With a harmonious floor decor and intentionally selected color tone, you can give every room the desired atmosphere. In addition, the grain and texture of the decor soothes or enlivens the room image. Finally, that extra element can be achieved by choosing the right floorboard format. Generous rooms are optimally accentuated by long, wide floorboards, while small rooms appear larger with short, narrow floorboards.

## Laminate Flooring

- 1 Classic.**  
It's suitable for any room, thanks to balanced proportions.
- 2 Large.**  
Produces the effect of space and works particularly well for country home decors.

- 3 Kingsize.**  
In large rooms, the decors display their full beauty. Whether with wood or tiled looks – our Kingsize boards leave an impression.
